

Recommended Oils and Lubricants

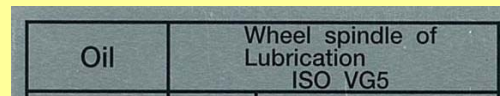

● Please make sure to use correct oil. Could cause serious damage.

Viscosity Grade	Shell	Mobil
ISO VG2	Tetra Oil 2SP	Velocite Oil No. 3
ISO VG5	Tetra Oil 5SP	Velocite Oil No. 4
ISO VG32	Tonna S3 M 32	Vacuoline 1405
ISO VG68	Tonna S3 M 68	Vacuoline 1409
ISO VG460	Omala S2 G 460	Mobilgear 600 XP 460

(November 2013)

※ The viscosity grade of wheel spindle lubrication oil may vary based on wheel peripheral speed and diameter.

Ex.) The viscosity grade of the wheel spindle lubrication oil noted in the GPL-30B series catalog is ISO VG5 under standard specifications (wheel peripheral speed: 33 m/sec, wheel diameter: Ø 405 mm), however for special specifications such as wheel peripheral speed of 80 m/sec or higher the viscosity grade will be ISO VG2.

※ Please make sure the indication of name plate on the tank, before supply of oil.
